## Project wins award

MINDARIE Keys coastal estate won the best Community-Town Major Urban Project award at the Urban Development Institute of Australia (WA Division) Awards for Excellence.

Fini Group general manager Con Delcos said the award completed a transformation at Mindarie which started nearly three years ago when the Mindarie Keys Joint Venture took over the estate.

"At the time, Mindarie was regarded as the white elephant land development of the 1980s," Mr Delcos said.

"But that has now changed with robust land sales and a thriving local community."

Fini Group project director Brett Draffen said more than \$2.1 million had been invested in landscaping and parkland and an additional \$1.2 million on a primary school.
